EDUCATION

University of Wollongong

Bachelor of Computer Science, Major in Big Data & AI | High Distinction

Dubai, United Arab Emirates

Sep. 2024 – Jun. 2027

- Dean's Merit List (2025)

GEMS Our Own Indian School

CBSE Class XII: Informatics, Accounting, Psychology, Business | 95.8%

Dubai, United Arab Emirates

Apr. 2023 – Apr. 2024

- AISSCE Merit Award (2024)

Certifications

Intermediate Data Engineering from AWS x DeepLearning.AI

Aug. 2025

PROJECTS

Tesseract – Multi-Agent RAG Chatbot |

Jul. 2026

- Co-built a multi-agent RAG chatbot using LangGraph, routing natural-language questions across a movie screenplay, a companion science textbook, and 41K+ annotated YouTube comments.
- Built an NLP pipeline (VADER, RoBERTa, spaCy NER, PyABSA aspect-based sentiment) over 54K scraped YouTube comments to extract sentiment, named entities, and aspect-level opinions.
- Engineered hybrid retrieval combining local Ollama embeddings and OpenAI embeddings across Weaviate and FAISS vector stores, with fully local answer generation via Qwen3:8B.

Weather Data – ETL Pipeline |

Aug. 2025

- Built an automated ETL pipeline extracting weather data from public APIs, transforming with Python, and storing in PostgreSQL.
- Orchestrated daily workflows using Apache Airflow, ensuring reliable and timely data ingestion.
- Containerized the stack with Docker and integrated Metabase dashboards for interactive visualizations of weather trends.

Internly – Full-Stack Web Application |

June 2025

- Led a 4-member team to develop a full-stack internship portal connecting students and companies.
- Implemented backend with Node.js and MySQL for authentication, user sessions, and dynamic internship listings.
- Designed responsive dashboards in HTML, CSS, and JavaScript enabling seamless student applications and company management.

EXPERIENCE

Growth Intern

Tern Rewards

Nov. 2025 – Jan. 2026

Dubai, United Arab Emirates

- Supported early-stage customer acquisition as part of a 5-member startup team, gathering user feedback to help shape product iteration.
- Resolved product queries and guided onboarding for interested users through direct calls and follow-ups.
- Conducted in-person outreach to 20–30 prospective users across residential buildings in Dubai, converting roughly 1 in 10 into onboarded platform users.

SKILLS

Languages (Proficient): Python (pandas, NumPy, Matplotlib, OpenCV, NLTK, spaCy), SQL, JavaScript, HTML/CSS

Languages (Familiar): R, C++, PLSQL

Technologies: AWS, Node.js, Docker, Apache Airflow, Apache Superset, Metabase, Oracle, PostgreSQL, Excel, LangGraph, Weaviate, FAISS, Ollama, Streamlit

Relevant Coursework: Advanced Programming, Data Structures & Algorithms, Advanced Database Management, Mathematics for Computing, Human-Computer Interaction, Modern Artificial Intelligence, Natural Language Processing
